

Hybria Curve

4-Post Library Shelving

MONTEL[®]
The Intelligent Use of Space

Inspired by contemporary European design, Montel's Hybria Curve 4-post library shelving is designed to foster collaborative library spaces that encourage meeting and staff work areas.

Hybria Curve expands the concept of library shelving mobility by supporting dynamic, multi-functional library spaces that easily transition as new needs arise. Hybria Curve incorporates flexibility and adaptability for today's library space planning.
